Lecompton, Kansas Territory.

Lecompton is beautifully situated on a gradual eminence, on the south Bank of the Kansas river, immediately opposite to the mouth of the Grasshooper; the shore is rocky, and the landing the best on the Kansas river.

The whole of the country for many miles around may be said to comprise the richest land and best timber, to be found in the Territory. No better hemp, corn, or wheat lands can be found in the West, nor a better watered country. The nature of the formation is such.

country. The nature of the formation is such country. The nature of the formation is such, that a continued process of fertilization is going on from the gradual disintegration of its limestone. The point of health; the well drained nature of the country is a sufficient attestation, that no malaria can here exist. Building materials of the finest qualities, both limestone and brick clay, are here found in abundance, and the coal discovered thoughout the Territory materials this section also.

ritory, underlies this section also.

This portion of the country is the most densely populated part of the Territory, and the fine fields of corn and other grains which surround it, show the industry of settlers, and the value of the lands. Little more need by said of the advantages of this place and its neighborhood as it is expected that persons wishing to invest in the rare chance now presented, will visit the town and judge for themselves.

Capitalists and others will, however tear in Capitalists and others will, however tear in mind, that Lecompton has been made the seat of Government for Eansas Territory by the Legislative Assembly, at their late session, and have also made it the county seat of Douglas county, Besides these advantages, which necessarily include the expenditure of the appropriations made by Congress for public buildings, a number of Territorial roads have been declarated. some of the most important places in the Ter-ritory to Lecompton; a charter has been gran-ted for a bridge across the Kansas at the town. which connecting with the great military road from Fort Leavenworth to Fort Riely, will enable trains and the traveling public, to avail themselves of this fine road, already bridged from one Fort to the other. This point will also centre all the trade and traveling from the northwest portion of the Territory, to meet the said road, the charter of which has been granted from Lecompton to Leavenworth City, one of the best landings and most prosperous places
